

Great Stuff Roots Edition Pres. Luomo - Tessio

Great Stuff

Great Stuff Roots Edition continues with the 2001 classic of Finnish wonderboy Sasu Ripatti aka Luomo. Since 2000 Finnish producer Sasu Ripatti aka Vladislav Delay aka Luomo has been one of the key figures in the deep house and minimal music fauna. His releases from Force Tracks are already named among the classics in minimal-deep house history.

His 2001 classic "Tessio" which has a very special place in music lovers hearts is again gets treated by contemporary producers in the scene. Stimming shows his skills on turning this sensual track into a more dancable orientation.

He gives us three versions including a 'Dub' and a 'Radio Edit' version. Also Spektre is in the row for a more uplifting and banging journey. We also see the original version remastered and polished for the use of new clubbers and DJs. A track to remember. Tessio is really one of the best tracks in the electronic music history and Great Stuff crew gets our appreciation by remembering this gem and providing it with three new and exciting versions.
